--	--	--	---	---	--

* All religious content, songs, and Gouin series are reviewed throughout Level 3, not just in the theme in which they are first introduced.

Further Notes:

- All grammar components are optional and mostly recommended for students in 3rd or better 4th grade and up who have already been introduced to the basics of grammar.
- Each fable is taught over the course of 6 lessons. Fables are always presented first in a picture study (an illustration of the fable), then the Gouin series version (a basic, simple sentence version) which students should ideally memorize, then in a simple story version (with a few more details than the Gouin version), and finally in a longer dialogue version which is generally presented in two parts and often adds a different twist and sometimes further characters to the basic version. Both the initial story and the dialog versions are accompanied by comprehension activities.
